# Case Study: A Solution For Financial Empowerment, Globally

- SoMee enables anyone to join for free and immediately earn income with no obligation of purchase.
- This young mother named Roxy was previously trying to raise her daughter on \$30.00/month in a severely depressed economy of Venezuela.
- Since she started using SoMee it has changed hers and her daughter's life.

Roxy is it true that you were trying to raise your daughter on \$30.00/month before?

4:39 PM ✓✓

I want to share your story (if it's still ok with you) and make sure it's accurate

4:39 PM ✓✓

Hello Chris. Yes. It is true. When I got to somee I was taking \$ 30 and with that I was trying to cover what was necessary to survive. In my country the minimum wage is less than \$ 30 and with that I was able to change my life. I started selling ice cream and used the money to buy materials and sell my cakes. Even so, I always increased my voting power in the hope of achieving an important place on the platform.

10:31 PM

I was really going through very hard times and you don't know the impact of SoMee in my life. My sister JuliCanRam was the one who introduced me to the page. I started with very little hope but little by little my vision changed. Everything you need to know I will gladly answer you. I would love that other people can change their lives and still believe in this project as it happened to me.

10:36 PM

You know something .. I really feel very lucky to be in SoMee. There are incredible people there. And I thank God that my life changed thanks to SoMee. And it was not just any change. My diet was poor, my daughter worried. My health deteriorated with stress and worries. And here it was impossible for him to make \$ 30 a month working for others. Here the minimum wage is less than \$ 10

10:43 PM

When I change I do it out of necessity. To buy food or medicine. But I can tell you that I have never withdrawn a coin from my voting power.

10:44 PM

Amazing! I am soo glad that your life changed for the better and that SoMee could be a part of that positive change!

10:47 PM ✓✓

That's right ... Thank God and SoMee. Even my family I have been able to help ... I know that SoMee will get to the moon because behind this page there is a great working team and good people. I thank you very much Chris because I have received your support since day 1

 **Roxy Cantini**  
January 4 at 11:46 am

Good afternoon everyone. My name is Roxana Cantini. I have a great history at SoMee who have had the opportunity to meet me know that I am an entrepreneur who knows how to identify opportunities and take advantage of them. This was not all the time like that. I was going through a terrible economic crisis and was really depressed. I am from Venezuela, my country is very bad economically and one day my sister introduces me to SoMee as a way to earn money to survive. It was then that I created an account and over time my life began to change. I could already buy food and medicine for my baby. Gradually my economic problems were already disappearing. However, I realized that in this way I was not betting anything on the platform that had changed my life. That is why I decided to change half to ONG and half in the voting power. So was for a while until I bought what I needed to work my job the pastry. Currently all my rewards I turn them on and although I use the platform since June specifically, I have already accumulated more than 160k in Gfuel. Today I greatly appreciate the work of Christopher Kramer and his team, as well as I have to thank the Fosta family, Rafael Gomez, Daniel Montgomery and many others because thanks to their votes I have been able to subsist and still manage to advance within the platform. This is my story. SoMee is more than a way to earn money for me there is a social approach that we can take advantage of if we manage to educate new users so that they understand that the best way to advance on the platform and consolidate this project is to ignite their rewards.

This is my story. Just as SoMee changed my life can change yours. Actively participate in the platform, help yourself but also turn on as much as you can because it is up to you that SoMee has a prosperous future. Great things are coming for SoMee this year.

- Roxy posted this testimonial on SoMee.social on January 4<sup>th</sup>, 2020, which she authorized us to share.
- She now earns \$400-\$600/month and telling many others in Venezuela about SoMee.

# Earnings Are Paid Daily Inside of The SoMee Wallet

- ✔ Money earned for posting content and for upvoting is paid inside of each user's wallet daily.
- ✔ We project that users will earn between **\$.25 to \$.50** per friend or follower on SoMee for the first full year from content, liking and ad-share earnings.

- However, Roxy earned \$600.00 on SoMee with approximately 300 friends/followers that first month by creating content and upvoting.
- Average Earnings during that time was approximately \$2.00 per follower.
- The reason? Voting Power, which Roxy mentions in her testimonial.

## Roxy's Reference To Voting Power

# What is Voting Power?

- At SoMee Voting Power is an important part of a “gamified” social media system.
- An up-vote in SoMee helps others earn money for both the person who up-votes or likes content and the person who created the content.

# Time to “Power Up” and Empower One Another One “like” At A Time!

Join us and let's all  
SoMee together!
